UMMoodle's Attendance System

FAQ:

Can students help others to take attendance?

- At this moment, the system has several features to avoid cheating.
 - Dynamic QR Code – the code changes every 30 seconds.
 - Students must be using UM's Wi-Fi – they should be within UM's campus.
 - One device can only do attendance once – the IP can only be used once.
- However, the system can be beaten if the student has two devices and the access of the UMMoodle's account of his or her classmate.
